

Senseez VIBE Unit - User Guide

SENSEEZ®

Relax | Soothe | Focus

Regular VIBE Unit – (batteries not included)

1. Requires two Double AA batteries - not included
2. To insert batteries, go to the back of the vibe and remove the battery door with a phillips (star head) screwdriver
3. Place two new Double AA batteries into the vibe. Follow the directional signs inside the unit for proper placement
4. Replace the battery door cover
5. Batteries last up to 20 hours with constant use (for best performance, high quality batteries are recommended)
6. This VIBE Unit is not waterproof and should not be in contact with water
